

## PT Pro ARTIFICIAL TURF

PT Pro is our standard grass-like landscape turf, providing good ground cover in high traffic areas. Perfect for pet areas! This unpadding artificial turf style is low maintenance, durable, drainable, and a perfect solution for ground cover.

This turf holds its color well, and looks great all year. Save money on water bill, water use and time needed to water. Recommended to use ½ pound per square foot infill to maintain proper weight and desired look.
