

## CASE STUDY

### Kirkbrae Country Club Lincoln, RI Golf Course/Driving Range

Located in Lincoln, Rhode Island, Kirkbrae Country Club (KCC) is a par 71 championship golf course and one of the premier clubs in southern New England. The club offers its member all the amenities that you would expect from a top tier club, including: an 18-hole golf course, driving range, swimming pool, and tennis courts.

When it came time to replace its driving range netting, KCC wanted to replace the netting while simultaneously creating a custom solution that would allow its maintenance team the ability to raise and lower the netting in a quick and efficient manner.

To assist them in the creation, procurement, and installation of the solution, KCC called on On Deck Golf and its operations team to collaborate and complete the project.

"Their ultimate goal was to try and protect their driving range netting from the harsh New England weather and provide less stress to the poles and cabling that support the netting up and down the range," says On Deck Director of Operations, Dan Cross.

Working closely with a member of the KCC's Board of Directors and its Course Superintendent, On Deck was able to develop the right solution that provides them with over 11,000 square feet of retractable netting for optimal protection.

Since 2001 On Deck Golf has been offering premium products and solutions. Whether you're looking for premium golf mats, growth covers for your putting greens, barrier netting for your driving range or other course accessories, our sales and operations teams can help you find the proper fit. Contact us to find the right solution for you and discover the On Deck difference!

**"It truly was a collaborative effort, and in the end the driving range looks great, and they have a solution that meets their needs"**
